EDUCATION

University of California, Berkeley

Expected Graduation: Spring 2020
B.A. in Computer Science
Major GPA: 3.74

Relevant coursework:

- CS 162: *Operating Systems*
- CS 164: *Programming Languages and Compilers*
- CS 168: *Intro to the Internet*

Purdue University, West Lafayette

GPA: 3.81 Fall 2016 – Spring 2018
Pursued B.S. degrees in
Computer Science and Math
Relevant coursework:

- CS 373: *Data Mining & Machine Learning*
- CS 381: *Algorithms*
- MA 571: *Topology*

SKILLS

Programming Languages

Proficiency

Javascript, Go, C/C++, Python

Experience

Java, C#, Scala, Ruby, Elixir, Lisp

Other Tools/Frameworks

Proficiency

Git, Kubernetes, Linux, React

Experience

Puppet, Jenkins, Android

Hobbies

Talk to me about

Jazz Saxophone, Coffee,
Audio Engineering, Music

my work

WORK EXPERIENCE

Brave Software brave.com

San Francisco, CA

Software Engineering Intern

Summer 2019 – Fall 2019

Improved inter-process communication between components in the browser C++ core. **Built** React UI components for the Rewards system and local cryptocurrency wallet. **Merged** dozens of pull requests that are public on GitHub.

Kelda kelda.io

Berkeley, CA

Software Engineering Intern

Spring 2019

Built features for a distributed application to assist development in the cloud. **Created** Kubernetes CRDs and controllers, working with the Kubernetes Go API. **Designed** this distributed architecture within a small startup team.

Studio by Purdue

West Lafayette, IN

Student Developer Intern

Summer 2016, Summer 2018

Deployed a new app to tens of thousands of students using ASP.NET and Azure in a small agile-based team. **Streamlined** data flow in the React frontend using Redux. **Abstracted and restructured** Android request handling.

Department of Computer Science, Purdue University

West Lafayette, IN

Teaching Assistant, CS 252 (Systems Programming)

Summer 2018

Mentored students with assignments and course material. **Created and updated** programming lab handouts and C skeleton code.

Angie's List angieslist.com

Indianapolis, IN

Software Engineering Intern

Summer 2017

Reimplemented a price comparison tool using the new React/Redux stack. **Restructured** microservice request handling within the company Scala backend library. **Created** integration tests and endpoint coverage reporting.

OTHER EXPERIENCE

Open Computing Facility ocf.io

University of California, Berkeley

Site Manager

Spring 2020 – *present*

General Manager

Summer 2019 – Fall 2020

Technical Manager

Fall 2018 – *present*

Lead ~100 volunteer staff and 8 paid staff, utilizing \$90k+ yearly funding. **Leverage** industry-standard tools such as LDAP/Kerberos, Kubernetes, and Puppet configuration management. **Maintain** an array of servers providing high performance computing, software mirrors, webhosting with 800k+ daily hits, and other services to 6000+ active users and 1000+ student organizations. **Manage** a lab of 30 Debian Linux workstations with thousands of weekly users.

PERSONAL PROJECTS

kotct/dot co5.us/dot

MinneHack at University of Minnesota

January 2017

A tool for creating universally-available personal configurations, supporting GNU Emacs. Any dot user can seamlessly fetch and enable any other user's configuration, with just a few keystrokes. *In ongoing development.*
